

Installation Manual & User's Guide

Happy News v1.6.1

MT4/MT5

English Language

Welcome to Happy News!

The Happy News Installation File plus the Happy News Installation Manual & User's Guide have been sent to your e-mail address as a single compressed file attachment. Save the attachment in a new \Downloads\Happy News folder and extract the files.

Installation and Setup of the Happy News v1.6.1 robot is very easily accomplished.

Note: All references to earlier versions in the screenshots below are understood to mean the current version.

Robot Installation:

1. Close all MetaTrader Platforms that may be running.
Locate your saved Installation File: Happy News v1.6.1.exe
Double click on the Happy News v1.6.1 icon.

2. The Happy News Installation Window will open.

1. Click the Browse Button, select the target folder where your MetaTrader4 is installed under \Program Files (x86) for MT4 and \Program Files for MT5, then click the Extract Button.

2. The installation process is very fast. When completed successfully, the installation window will close without further notice.
3. Repeat the above steps for each instance of MetaTrader on which you wish to run Happy News.

Robot Setup:

Launch your MetaTrader4/5 Platform.

It is necessary to Allow the WebRequest and insert the URL link for ForexFactory Calendar.

To do so, Go to Tools/Option/Expert Advisor

Check the box "Allow WebRequest for listed URL: Add the following:

http://nfs.faireconomy.media/ff_calendar_thisweek.xml (Only COPY!) click ok.

1. Create a new EURUSD, GBPUSD, USDJPY and AUDUSD on Chart and Set it to M15.

Use your mouse to drag the Happy News robot onto the chart.

2. The Expert Advisor Properties Page will open.
Verify all Common Settings are as shown above.

3. The Expert Advisor Inputs:

Name_EA: The Expert Advisor Name and Version Number

Serial_Number: Locate in email: Serial_Number that we sent as part of your installation package. We use an expiration date to help secure the robot against piracy. If you are a legitimate registered user, you will receive a replacement email before the expiration date, if a new version update is not issued before then. Copy and Paste the number into the Serial Number field of the Inputs tab as shown above.

Magic: A unique random Magic Number enables Happy News to distinguish its open trade positions from those that were entered by other robots, or done manually. Any number is acceptable as long is not the same number used by any other robot running on this MetaTrader Platform. We recommend you change this number to any other number to help hide the identity of your robot from your broker-dealer.

Magic must change for all currency pairs!

AutoGMT: Automatic GMT setting according to your broker. (Default = true)

GMTOffset: manual setting GMT according to your broker.

A. Trading Options

SetPendingSecondsBeforeNews: Seconds before News to set pendings (Default setting: 3)

PendingDistanceFromPrice: Pending distance from Market Price (Default setting: 10)

DeleteUntriggeredPendingsAfterNews: Seconds after News to delete untriggered pendings (Default setting: 60)

C. Alert Options

AlertSecondsBeforeNews: Alert seconds before news (Default setting: 300)

SoundAlert: false (Default = false)

SoundFile: alert2.wav (Default setting: alert2.wav)

PopupAlert: false (Default = false)

EmailAlert: false (Default = false)

PhoneAlert: false (Default = false)

Launch of Happy News robot:

Once all Inputs have been set, click OK to close the properties Page.

Insure the Auto/Algo Trading Button is depressed; the Green Play Arrow is now seen.

When all is correct the "Smile" emoticon will appear in the upper right corner of the chart. A "Sad" emoticon indicates there is an error.

If the serial number is incorrect, you will see "INVALID KEY!". The robot will not trade until a valid, unexpired Serial Number is correctly entered. See above discussion at #6 for Serial Number information.
