

Installation Manual & User's Guide

Happy Trend v2.1

MT4/MT5

English Language

Welcome to Happy Trend!

The Happy Trend Installation File plus the Happy Trend Installation Manual & User's Guide have been sent to your e-mail address as a single compressed file attachment. Save the attachment in a new \Downloads\ Happy Trend folder and extract the files.

Installation and Setup of the Happy Trend v2.1 robot is very easily accomplished.

Note: All references to earlier versions in the screenshots below are understood to mean the current version.

Robot Installation:

1. Close all MetaTrader Platforms that may be running.
Locate your saved Installation File: Happy Trend v2.1.exe
Double click on the Happy Trend v2.1 icon.

2. The Happy Trend Installation Window will open.

3. Click the Browse Button, select the target folder where your MetaTrader4/5 is installed under \Program Files (x86) for MT4 and \Program Files for MT5, then click the Extract Button.

4. The installation process is very fast. When completed successfully, the installation window will close without further notice.
5. Repeat the above steps for each instance of MetaTrader on which you wish to run Happy Trend.

Robot Setup:

Launch your MetaTrader4/5 Platform.

It is necessary to Allow the WebRequest and insert the URL link for ForexFactory Calendar.

To do so, Go to Tools/Option/Expert Advisor

Check the box "Allow WebRequest for listed URL: Add the following:

http://nfs.faireconomy.media/ff_calendar_thisweek.xml (Only COPY!) click ok.

1. Create a new EURUSD on Chart and Set it to H4.

2. Use your mouse to drag the Happy Trend v2.1 robot onto the chart.

3. The Expert Advisor Properties Page will open.
Verify all Common Settings are as shown above.

Expert - Happy Trend v2.0

4. The Expert Advisor Inputs:

EA_Name: The Expert Advisor Name and Version Number

Serial_Number: Locate in email: Serial_Number that we sent as part of your installation package. We use an expiration date to help secure the robot against piracy. If you are a legitimate registered user, you will receive a replacement email before the expiration date, if a new version update is not issued before then. Copy and Paste the number into the Serial Number field of the Inputs tab as shown above.

MagicNumber: A unique random Magic Number enables Happy Trend to distinguish its open trade positions from those that were entered by other robots, or done manually. Any number is acceptable as long is not the same number used by any other robot running on this MetaTrader Platform. We recommend you change this number to any other number to help hide the identity of your robot from your broker-dealer.

Slippage: Maximum difference between the order & fill price granted to the broker. (Default setting: 4 pips)

FixedLots: Size of the first open lot. When you set the RiskPercent at 0 EA will use FixedLot.

RiskPercent: The percentage of your account risked per trade based on account. (Setting: 0.1% low – 0.5% medium - 1% high) (0 to disable)

SafeEquityStopOut: (true/false option) (Default = false)

SafeEquityRisk: determines if Happy Trend closes all open trades when a percentage of the account equity is in a floating loss. (Default = 50)

A. Newsfilter

News Filter inputs that can be used to tell the EA to avoid trading X hours before and after low, medium or high impact news releases.

(<http://www.forexfactory.com/calendar.php>)

CalendarSource: Choice of two calendar sources 1 or 2

(After selecting a calendar source 1 or 2 always restart MetaTrader 4 and verify the accuracy a time News on www site: <http://www.forexfactory.com/calendar.php>)

_CalendarSource: 1=BinarySweetSpotNews or 2=ForexFactoryNews

forexFactoryXML=http://nfs.faireconomy.media/ff_calendar_thisweek.xml

forexBinarySweetSpotXML=<http://www.binarysweetspot.com/BinarySweetSpotNews.xml>

AvoidNews: (true/false option) (Default = true)

OnlyForCurrentPair= (true/false option) (Default = true)

AlwaysIncludeCurrencies= EUR, USD

ShowLinesOnChart= (true/false option) (Default = true)

HighImpactColor= C'185,30,30'

MediumImpactColor= C'225,115,30'

LowImpactColor= clrGoldenrod

High_Impact = (true/false option) (Default = true)

MinsUntilNextHighNews: 360 (mins before an event to stay out of trading.)

MinsSincePrevHighNews: 180 (mins after an event to stay out of trading.)

Medium_Impact = (true/false option) (Default = false)

MinsUntilNextMediumNews: 270 (mins before an event to stay out of trading.)

MinsSincePrevMediumNews: 90 (mins after an event to stay out of trading.)

Low_Impact = (true/false option) (Default = false)

MinsUntilNextLowNews: 180 (mins before an event to stay out of trading.)

MinsSincePrevLowNews: 60 (mins after an event to stay out of trading.)

IncludeSpeaks= (true/false option) (Default = true)

Launch of Happy Trend robot:

Once all Inputs have been set, click OK to close the properties Page.

Insure the Auto/Algo Trading Button is depressed; the Green Play Arrow is now seen.

When all is correct the "Smile" emoticon will appear in the upper right corner of the chart. A "Sad" emoticon indicates there is an error.

If the serial number is incorrect, you will see "INVALID KEY!". The robot will not trade until a valid, unexpired Serial Number is correctly entered. See above discussion at #6 for Serial Number information.
